BUSINESS CREDIT REPORTS

A+ BUSINESS CREDIT DECISIONS

All the business credit data you need, verified and consolidated in one easy source.

Be Aware - Not All Business Credit Reports Are Equal

Lots of business credit reports include info that has been self-reported instead of independently verified.

Is Your Business Credit Data Verified?

It should be. Credit Plus is a leading one-stop source for Experian and Equifax business credit reports. Don't rely on self-reported data's accuracy or truthfulness. Credit Plus offers accurate and detailed credit information, business demographics, tradeline and payment history, and more.

SHOULD I REALLY LOAN THIS CUSTOMER MONEY?

Credit Plus is one of the only providers of Principal/Owner Credit Reports. You gain insight on how business owners handle their credit, which strongly indicates how they may handle their business finances. Plus, it's a soft pull for customers!

HOW MUCH CREDIT SHOULD I EXTEND?

Credit Plus also offers access to a Blended Data Report. This report provides business and personal credit info, blended into a single scorecard. You get the bigger picture for the best decisions.

Spot Opportunities, Cut Risks with Business Account Monitoring

Our **Business Account Monitoring** tool allows you to obtain real-time insights on financial health and more for individual customer accounts or your entire commercial loan portfolio.

In turn, you can:

- + Proactively manage risky accounts
- + Know if customers might fall behind on payments
- + Spot opportunities to increase credit, and more!

Better Business Credit Decisions in Less Time With Credit Plus – No Annual Contract Required
